### OUR FIRST ANNIVERSARY.

The present issue of THE MORNING HERALD completes the first year of its publication, and the event is suggestive to us of some interesting reflections. The establishment of a daily newspaper is seldom undertaken as an individual enterprise, and is at all times a hazardous and expensive undertaking. THE HERALD was started alter the collapse of the limmense speculative investments in this region of country and during the general commercial reaction. The best friends of the enterprise predicted its early failure. We had too much confidence, however, in the public spirit and stability of our business men to doubt the success of an undertaking which appealed to the interests of all classes, and which was designed to enhance the general pros-

Starting with less than three hundred regula subscribers, and with a sheet scarcely one-half the nize of the present issue, we have attained a regular daily checulation of nearly fifteen hundred copies, and now offer a paper of first class dimensions. One year ago one-half dozen men sufficed to perform all the work, connected with the establishment. To-day The Herald office gives employment to twenty-five persons in Titusville, and our pay roll (including rent of office) exceeds \$500 per week. These matters are evelusive of the disbursements for paper. stock, and materials consumed in our regular

The circulation of The Henaus is by no meaconfined to this locality. Nearly every village and town within the limits of the oil region, has a numerous list of subscribers, our present daily Issue at Pretroleum Centre alone numbering nearly one hundred and fifty. Hundreds of copies are sold daily to newsdealers upon the railroads and elsewhere, and about one hundred copies are sent daily to New York, Philadelphia, and other leading cities. The advantages of this paper : an advertising medium, especially for local busies perposes, and all matters calculated to in erest "oil men," are sufficiently obvious In the editorial management of the paner, on

public, and neither the organ non representative of any class or elique. Our local elections have been conducted without reference to political differences or partison basis, and while as Republigan in politics we have neither ignored as tional issues, nor disguised our own views and atiments of public men, measures or policy, intolerant and self-sufficient spirit towards our friends of an opposite faith who were without a representative organ.

As to the general merits of our enterpoise we

columns have always been open to the general

leave others to judge. The flattering assurances of our friends have not blinded us to the inadequacy of our efforts. It has been a year of unstriven to discharge our duty to the public, we find ample satisfaction. In entering upon an other year, at a time of general business depresstop at home and shroud we bespeak from our patrons the same degree of sympathy and support which attended our carlier efforts. Profiting by the experiences of the past we hope at the expiration of another year to have realized

## Destructive Fire at Phthole City.

A disastrous fire occurred at Phihole yesterday morning about 2 o'clock. The fire originated on First street, near the Florence restaurant, and extended rapidly in both directions, destroying some fifteen or twenty buildings. The Record ways all the buildings on both sides of Firststreet. between Brown and Pather streets, are destroyed. Within a few doors of the Continental Hotel a building was torn down, which prevented it reaching the former

The min of last night was a godsend to this place, for had the buildings had been dry no efforts could have saved the city from destruction. The loss must be somewhere in the neighborhood or \$25,000. The following is a partial list of the buildings destroyed: Florence Restaurant ; Hogan's Lager Beer Salbon; Ice Cream Saloon; Washington Restaurant; Dutch John's Lager Beer Saloon; Hill's Restaurant and the Blacksmith Shop near the Galt House.

We near, but trust the rumor is not correct that two children were burned in one of the huildings. It is suspected that the fire was the work of an incendiary.

SHOCKING AND PATAL ACCIDENT.-The body of a little girl was soon yesterday afternoon drifting down the current of the mill race a few rods below the race bridge on Franklin street. When it was recovered from the water, life was quite extinet, and the body was shockingly mutilated The unfortunate girl, it is supposed, while walk ing over the open frame work of the flume in the rear of the mill, lost her footing and fell into the water, which is about six feet deep. It is prob able that her body was instantly drawn through the box into the wheel. The wheel makls sixty recolutions per minute. After being terribly mutilated she was discharged beneath the mill and passed down the current. It was a singular circumstance that there were no makes of vio-tence or suffering upon the face of the little one-She was ten years of age, a daughter of M. H. Bernstein. The afflicted parents seemed quite

broken hearted by the calamity.

-About seven o'clock Justice Strouse was called upon to act as Coronur over the hody. After empanneling a jury of six, and examining six witnesses the following verdiet was read by Dr. Luce, the foreman: That Mary Bernstein came to her death by accidently falling into the mill race, and it is recommended that the exposed portion of the race above the wheel be planked

A Sentous Change,-An ex-policem Edward Lynn and a man named Wm. N. Wood were arrested at Pithole on Tuesday, charged with having committed the assault on Thomas McArie on the night of May 2d., McAria wa robbed and then so severely bested that he die a few days afterward. The Record intimates that

the charge is brought against Lynn and Wood for the purpose of screening the guilty parties who have stready been committed to jail.
